### **STATE PROJECT 2008-2009**

FCL Yards and Neighborhoods (FCLYN)

Members understand and promote sound environmental practices, encourage the creation and maintain attractive landscapes in local community and become familiar with nine major principles that can create and maintain beautiful lawns and gardens.

### **STATE PROJECT IN COMMON WITH NVON 2008-2009**

MAD: “**M**aking **A** **D**ifference for Children in Foster Care.”

The objective of the project is to help children who are being placed in foster care.

Opening your home to children in need is an act of compassion and generosity that has a life-long impact on children. We hope to support and promote court-appointed volunteer advocacy for abused and neglected children so that they can thrive in safe, permanent homes and benefit from enduring, positive relationships from caring people.
