

## Pollinator Garden Project

Anne Marie Johnson and Chanda Cooper have joined together to share information on a demonstration pollinator garden project funded through an Urban Agriculture Conservation Grant by the National Association of Conservation Districts. (Currently, the garden is closed to visitors due to the coronavirus pandemic.) These short videos from the Richland County Office of Public Information's Watch and Learn Series on YouTube show us various aspects of the pollinator garden. Take a few minutes to enjoy them! These can also be found on the RCMGA website ([richlandmastergardeners.com](http://richlandmastergardeners.com)) under Gardening Information, Birds and Pollinators.

*Anne Marie Johnson, pollinator garden manager, tends to Richland County's pollinator garden and demonstration area.*
